The Insurance Services Office Incorporated (ISO), and the City of Dayton are working to change the ratings of the areas of Dayton that have added city water supplies.

The city of Dayton Fire Department operates with the following equipment and manpower:

- Pumper Engine 11 with 1000 gallons of water.
- Pumper Engine 21 with 1000gallons of water.
- Tanker 11 with 3500 gallons of water.
- Utility 21 with compressor and support equipment.
- Grass 11 with 250 gallons of water and pump.
- Grass 21 with 250 gallons of water and pump.
- Rescue 11 with air packs and medical support equipment.
- Rescue 21 with air packs and medical support equipment.
- Boat 11 for water rescue.
- Boat 21 for water rescue.
- We have 30 trained fire fighters, first responders and EMT personal. We are activated through Hennepin dispatch.

The community's rating is a 6-9. If you're insurance company needs a letter from the Dayton Fire Department with the distanced of your residence from the fire station and the closet fire hydrant, we will provide that information in the spaces below.

Closest station to _____ is station _____ distance is _____ miles
(Address)

Distance to above address is _____ feet to the nearest Hydrant.

Dayton Fire Chief _____ Date _____

We hope this helps. Should you need to contact us, please don't hesitate to call or send an email:
